

C34 shown with black legs, black door and safety screen.

REGENCY CLASSIC™ | C34

The Regency Classic gas stove provides the traditional look of a wood stove, but with the convenience of gas. This stove does not require an existing chimney and can be installed with a direct vent to use outside air for combustion, allowing your home to stay warmer. The Classic gas stove, like all Regency gas stoves, operates safely without electricity - keeping you warm with radiant heat.
