

FREE STAND WESTWOOD

Introducing the Westwood, the free standing stove. The Westwood boasts one of the boldest flames we have ever designed. The entire bottom of the burn chamber is one big stainless pan burner and much like the DVI26,000 Champion, the flame works its way around the log set creating an incredibly realistic burn. The log set and brick set are new designs for us; the brick being a darker shale rock design and the log set is big, bold, dark and charred.

The stoves slightly more contemporary design is meant to fit in with the rest of our lineup. We always aim to be unique!

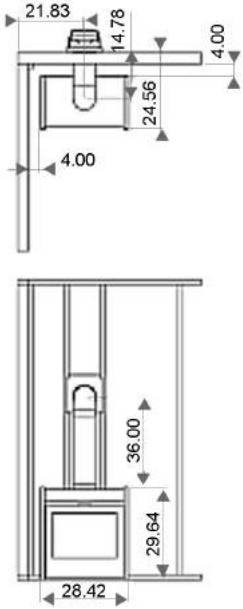

#100-11091 Bridgeport Rd. B.C. V6X 1T3 Ph:604-231-8923 Fx:604-231-8924
